ARE YOU AGAINST LITTER?

We live and work in one of the most beautiful areas in the country, but the district only stays this way because of our dedicated teams who travel around 303 square miles every week keeping it clean.

We spend over £1 million every year on making sure that the district is clean and tidy. If people didn't drop litter, fly tip or leave behind their dog's mess, some of this money could be spent on more important community services.

Our 'Against Litter' campaign aims to bring everyone together to help keep our district beautiful.

Last year, we trialled a successful litter enforcement scheme and encouraged you to alert us of any extensive littering in your area. However, our campaign does not stop there.

This year, we want to encourage everyone living in the Chichester District to help us to keep our district looking beautiful by adopting an area.

The area you adopt can be the pavement outside your home, a footpath, play area or shop frontage – all we ask is that you help us to keep that space litter free. This could involve encouraging people to take pride in their local area; arranging a litter pick; or reporting problems to us, such as fly tipping; extensive littering; or, continuous issues of dog fouling.

We're not asking you to do our job for us. Instead, we are asking for your support and to be our eyes and ears in your local community. By working with you, we will be better able to respond to the issues facing our district.

PLEASE HELP US TO KEEP OUR DISTRICT BEAUTIFUL
