There is no reasonable access between the village of Ifold and Plaistow, the distance is too far and residents will choose to drive and are just as likely to choose Loxwood village which for many is closer, either by driving or walking. There is no protected footpath for the nearly 2mile distance between the villages of Ifold and Plaistow and with traffic at 60mph speeds it is unsafe for pedestrians to walk. For CDC to designate the two villages as one service village and to also to put a settlement boundary around one and not the other makes a nonsense of placing development in the right place to meet the need to reduce the use of cars and ensure residents can access facilities easily. It also results in the lack of facilities and services in the larger village not being recognised and reduces the ability to address this issue. The Parish Council have endeavoured hard to produce a Neighbourhood Plan within these constraints and the extraordinary difficulties this perverse Settlement heirarchy creates. What improvements or modifications would you suggest? To amend the Service Village and the settlement boundary designations for the villages of Ifold and Plaistow.
