Please give details of your reasons for support/opposition, or make other comments here:

I object to the plan in that there is totally inadequate provision for schools, surgeries, low carbon transport and an entirely irresponsible stance re green corridors and the coalition of villages into urban sprawl.

The proposed housing numbers are out of all proportion to local need and merely encourage incoming retirees who can afford the inflated prices.

(Continue on separate sheet if necessary)

What improvements or modifications would you suggest?

A complete revision of the housing numbers related to local need.

A block put on all development in green corridor areas.

A moratorium on all development until the appropriate infrastructure is planned and committed to, particularly sewerage , schools and surgery provision.
