Please give details of your reasons for support/opposition, or make other comments here:

I would like to oppose the existing plan because there are too many houses on the plan. The infrastructure cannot cope with all that many, as it is struggling now. The sewage system is one problem area and we know raw sewage regularly finds its way into the harbour. The local Surgery is another. It is struggling now and from what I see there is no provision for another. The state of the back roads which are going to serve these new houses is another.

What improvements or modifications would you suggest?

We need the infrastructure sorted out before the houses. We also need the roads improving and a bridge across the railway before any development. If we don't then we end up with an urban sprawl with no integration and no centre.

The type of houses proposed, suggests that only older people can afford them and that in turn puts more strain on the doctor's surgery.
