**Please give details of your reasons for support/opposition, or make other comments here:**

We welcome and support new paragraph 5.29, which we requested was added at R14 stage. This will help to ensure that the historic environment is appropriately planning for in respect of this allocation (SB2) due to its archaeological potential and would not introduce additional burden on the development site given that these principles can be found in other areas of policy – either at local plan level or national level. The additional text bring clarity and certainty to the actions that would be required to support development on this site.

Typographical para 5.29 L4: ‘Heritage England’ should be ‘Historic England’.
