Community Feedback – Key Matter Priority 1 – Utilities infrastructure/sewage treatment.

Planning Inquiries often play down the relevance of sewage treatment capacity as the relevant water/drainage utilities are deemed to be required to meet whatever demand [from new housing] that is proposed.

However, it has been shown over the past five years in particular, that Southern Water is increasingly less able to provide adequate sewage treatment to meet new housing demand and in 2019 it was fined for multiple breaches of sewage pollution by discharge into local harbours. I have no confidence that Southern Water is able to meet the sewage infrastructure demands created by the [inflated] dwelling numbers that the S N. Plan Review has accepted and thus cannot support the Plan proposals for housing numbers.

What improvements or modifications would you suggest?

Southern Water needs to show how and where they will construct the new facilities NOW to deal with the unprecedented quantity of new housing in the S N. Plan Review.
