<p>Please give details of your reasons for support/opposition, or make other comments here:</p> <p>I strongly support the provision for Wildlife Corridors at the Lumley and at Ham Brook chalk streams as shown in the Modified Neighbourhood Plan.</p> <p>The importance of such Wildlife Corridors is emphasised by Natural England in its press release dated 3rd April 2023 which related to the “Species Recovery Programme Capital Grant Scheme”. Tony Juniper (Chair) said “ England’s wildlife is subject to a range of pressures with many species seeing drastic decline. The fragmentation of habitats, historic losses of natural areas, pollution, the changing climate and the impact of invasive alien species have all played their part, to the point today where nearly 40% of England’s wildlife species are in decline and about 15% in danger of becoming extinct here.”</p> <p>The press release included water voles as one of the threatened species. These are an important part of the food chain and have been recorded in the Southbourne Wildlife Corridors as proposed in the Modified Neighbourhood Plan.</p> <p>In a radio interview following the press release, Tony Juniper confirmed that Wildlife Corridors should be sufficiently large and diverse in order to provide functioning connecting routes between established habitats. Ancient hedgerows, watercourses and trees all contribute to the value of these Corridors.</p> <p>Southbourne Parish occupies a pivotal location between established habitats within Chichester Harbour and the South Downs National Park, and the Modified Neighbourhood Plan provides the opportunity to safeguard two very important routes linking these areas.</p>
