**Subject:** Compulsory purchase of land in Tangmere- Tangmere strategic development

You don't often get email from [REDACTED] [Learn why this is important](#)

Dear Sir/Madam,

I write to object to the Tangmere strategic development plan. We don't need any more houses built in the Chichester area. Our reasons for objections are. The area is over crowded, the roads can't cope with the amount of traffic we all ready have. Having lived in Tangmere for 17 years with the land in question to the back of my house, I have seen the hard working farmers every year sow, prepare and harvest the fields with love and care and huge devotion. It would be a massive error to allow this development for these reasons

Too many houses already in the area

Roads can't cope already with very poor and stupid planning of the roads.

The hospital is over run and can't cope with the amount of people/patients it already has in the area without another 1000 homes with probably at least 4 people per house

The amount of food (vegetables loss) this development will cause.

The huge amount of deer population you will force to move.

Who thinks of these stupid plans? What you should be building is another Hospital and more school to cater for all the extra people that have moved here due to house building near oving crossroads and all the other places around here that have been built on. Even in the computer game Sims City you get to a certain population you have to build more schools and hospitals before you can build more houses!!

Is anyone thinking about all the pollution this will cause probably another 2000 cars at least, with road closures already causing you to travel further, sit in traffic quenes miles long. We need to protect these fields, wildlife, food growing and hard working farmers. We are already facing food shortages, without taking away more to build houses. Where are all these people coming from???

NO MORE HOUSES!!!!

Thank you for taking the time to read.
