3 May 2024

**Dear Matthew** 

## Submission of the Chichester Local Plan 2021 - 2039

Chichester District Council is pleased to submit our Chichester Local Plan 2021 – 2039 to the Secretary of State for Levelling Up, Housing and Communities for independent examination in accordance with Regulation 22 of the Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended).

The Local Plan contains both strategic and non-strategic policies (as set out in Appendix G). Work has commenced on a Southbourne Site Allocation Development Plan Document to allocate land for development within the Southbourne Broad Location for Development (BLD). As the current Local Development Scheme (LDS)<sup>1</sup> has this work as part of the Site Allocation DPD (due to follow on from the Local Plan adoption), we are proposing to update the LDS at the next available opportunity.

I can confirm that the relevant Council authority was granted on 24 January 2023 for submission of the Local Plan and supporting documents following publication and consultation, with delegated authority granted to the Director of Planning and Environment (following consultation with the Cabinet Member for Planning Services) to make modifications and prepare the Council's response to the main issues identified. Following consultation with the Cabinet Member for Planning Services, the Director of Planning and Environment has instructed me formally to submit the Local Plan for examination.

The following documents and information are submitted:

- Chichester Local Plan 2021 2039: Proposed Submission (January 2023) (SD01)
- 2. Schedule of Proposed Changes to the Policies Map (January 2023) (shown on the online Policies Map) (submission policies map) (SD02)

<sup>&</sup>lt;sup>1</sup> Timetable - Local Development Scheme - Chichester District Council

- 3. Sustainability Appraisal (SA) of the Chichester Local Plan (January 2023) (SD03.01) and SA Non-Technical Summary (January 2023) (SD03.02)
- 4. Chichester Local Plan Habitats Regulations Assessment (January 2023) (SD04)
- 5. Statement of Consultation (Regulation 22 (c)) (April 2024) (SD05)
- 6. Duty to Cooperate Statement of Compliance (April 2024) (SD06)
- 7. Regulation 19 Local Plan: Equality Impact Assessment (January 2023) (SD07)
- 8. Regulation 19 Local Plan: Health Impact Assessment (January 2023) (SD08)
- 9. Supporting documents and the evidence base documents relevant to the preparation of the Local Plan (see examination webpages)
- 10. Copies of representations made in accordance with Regulation 20
- 11. Council's suggested modifications schedule with appendices (SD10.01, SD10.02, SD10.03, SD10.04)
- 12. Addendum to Habitat Regulations Assessment: Pre-Submission Modifications (April 2024) (informal HRA review of Council's suggested modifications) (SD011)

Following the Regulation 19 consultation, further work has been carried out with National Highways, West Sussex County Council, Hampshire County Council and Arun District Council in relation to the suggested modifications to Policy T1: Transport Infrastructure (SD10.04). The transport work relating to the A27 Chichester Bypass is key and goes to the heart of the Local Plan; work in relation to the mitigation strategy remains on-going through the Transport Infrastructure Management Group. In addition, as a result of a new issue relating to air quality being raised by Natural England at a late stage of the plan preparation (Regulation 19 HRA), discussion with Natural England and any necessary cross boundary working will continue, as reflected in the Addendum to the HRA (April 2024) SD011) and the Duty to Co-operate Statement of Compliance (SD06)

The Duty to Cooperate Statement of Compliance (SD06) has been updated since the January 2023 version to reflect the process of continuous engagement prior to submission of the Local Plan. As part of the Local Plan consultation and ongoing liaison, the council is preparing a number of Statements of Common Ground (SoCG) with neighbouring authorities and other statutory bodies. For the full list and latest progress update please see the Duty to Cooperate Statement of Compliance (April 2024) (SD06). Additional SoCG will be added to the Examination Library (SC01 and onwards) in due course as they are finalised.

Please note that the submission documents include a 'Council's suggested modifications schedule' (SD10.01 – SD10.04). Following publication of the Local Plan at the Regulation 19 (Proposed Submission) stage, the council has identified a list of further suggested changes. These are intended to improve the Local Plan and respond to the issues raised and have been informed by updated evidence where necessary. The changes listed in this document have not been subject to consultation, although discussions with statutory consultees have either been concluded, or remain ongoing (see Duty to Cooperate Statement of Compliance (SD06).

The suggested modifications are for the Inspector's consideration as part of their deliberations on the Local Plan. The council's consultants have also produced an Addendum to the HRA (SD012) to take account of the council's suggested modifications. If the Inspector/s are minded to consider the council's suggested modifications, an SA note could also be prepared.

The Statement of Consultation (Regulation 22 (c)) (April 2024) (SD05) provides a high-level summary of the issues raised at Regulation 19 and the council's response, including, where relevant, any suggested modifications. It also provides a breakdown of the number of representations received in support or objection to each policy. The council has also completed the PAS Self Assessment Toolkit (Part 4) which is included in the supporting documents (CD04).

The following sets out the changes that have been made to the supporting documents in response to: issues raised in the Regulation 19 consultation; the age of evidence; or changes to national policy. These documents either have been or will be published in the Examination Library, depending on their status on submission:

The Open Space Study, Playing Pitch Strategy and Indoor and Built Sport and Leisure Facilities Needs Assessment, evidence studies have been updated due to the age of the earlier studies (2018). The Open Space Study Update 2024, Review of the Playing Pitch Strategy and Indoor and Built Sport and Leisure Facilities Needs Assessment 2024 (PH02) will follow shortly.

The Transport Study (TA03.01 - 19) has been updated in response to the ongoing engagement with the highway authorities to resolve the objections and comments they made in response to the Local Plan at Regulation 19. The Monitor and Manage – Provisional Methodology (TA03.20) is a living document.

The Gypsy and Traveller Need Assessment (H02) has been updated to reflect the revised definition in the Planning Policy for Traveller Sites (PPTS).

A Review of the position statement for Thornham (March 2024) (CC16) was carried out jointly with Havant Borough Council to provide an independent review of the information provided by Southern Water. The Estimated Wastewater Treatment Headroom (CC11) is updated annually with the latest position published in March 2024.

Evidence has also been produced on caravan and houseboat dweller needs (HD01), residential density (PH01), residential space standards (PH04), and an updated custom and self-build position (H13) following an update to the Custom and Self Build Register.

The Strategic Flood Risk Assessment (December 2023) (CC06, CC07 and CC08) was updated in 2023 to reflect the changes to the Planning Practice Guidance (PPG) and

NPPF update in 2021. This was made publicly available to support development management.

The HRA Addendum includes an updated air quality assessment and technical note (SD011) to provide further evidence for ongoing discussions with Natural England on potential air quality impacts on SAC/s.

The Infrastructure Delivery Plan (IDP) (IN01) has been updated to reflect the latest evidence studies set out above and any relevant feedback from the annual consultation with infrastructure providers on the Infrastructure Business Plan (IBP).

Please note that we aim to send and publish a suite of supporting Background Papers by the end of May, to further aid the Inspector's consideration. The Papers are listed in the table attached to this letter ((BP01 – BP14).

The council notes the publication of the revised NPPF in December 2023 which while effective immediately sets out at Annex 1 that plans that reach pre-submission consultation on or before 19 March 2024 will be examined under the relevant previous version of the Framework.

The representations received by the council to the Regulation 19 consultation are set out in plan/policy order and representor order and also any representations relating to the Sustainability Appraisal, HRA and Policies Map changes (SD09.01 etc).

There is also a published webpage with the Local Plan and all the Regulation 19 representations alongside each paragraph and policy (any personal details redacted) <a href="https://www.chichester.gov.uk/viewandcommentonthelocalplan">https://www.chichester.gov.uk/viewandcommentonthelocalplan</a> (click 'View the Proposed Submission Local Plan'). We will be publishing our responses to each representation in due course, which will be available to view using the same link.

The name of the appointed Programme Officer along with their contact details is:

Kerry Truman
Chichester Local Plan Examination
Pendragon House
1 Bertram Drive
Meols, Wirral
CH47 0LG

Telephone: 07582 310364

Email: programmeofficer@chichester.gov.uk

The Examination webpage can be found here, with details of the Programme Officer and ready to add future correspondence with the Inspector: <a href="https://www.chichester.gov.uk/localplanexamination">https://www.chichester.gov.uk/localplanexamination</a>

The council's preferred dates for the Examination hearings are to avoid any holiday periods such as over summer but will otherwise depend on the Inspector's work pattern and what is considered relevant and necessary.

The council would estimate in the region of 10 - 14 days over 3 – 4 weeks for the hearings but this is only an approximate estimate at this stage and will depend on the range and complexity of the matters, issues and queries to be identified by the appointed Inspector(s). The council is willing to host both in person and/or virtual hearings as the Inspector considers necessary. Based on responses at Regulation 19, we anticipate approximately 100 people wishing to participate, with the main issues being the spatial strategy and settlement hierarchy, housing need and supply, transport including the A27 bypass and new strategic site allocations/ Broad Location for Development (BLD) and strategic parish requirements.

A Purchase Order number is being set up for PINS, and details will be sent separately to you, along with the Service Level Agreement.

In accordance with section 20(7C) of the Planning and Compulsory Purchase Act 2004 (as amended), the council requests that the Inspector recommends main modifications as necessary to make the plan sound and legally compliant. I look forward to hearing from you in due course.

Yours sincerely

Tony Whitty
