I object most strongly to your application for a compulsory purchase order to facilitate a grant of planning for development of housing with access opposite an infant and junior school.

I understand that your application states that this will contribute to the social and environmental wellbeing of the area.

To the contrary, it will create a dangerous and unnecessary road junction opposite an infant and junior school.

How can this be for the wellbeing of an area?

This access has been objected many times.

How many times must it be objected to.
